

Using the given figure, complete the following table.

| Point | Abscissa | Ordinate | Coordinate |
|-------|----------|----------|------------|
| A | _____ | _____ | _____ |
| B | _____ | _____ | _____ |
| C | _____ | _____ | _____ |
| D | _____ | _____ | _____ |

2. From the given figure, write the following:

- (i) The coordinates of A.
- (ii) The abscissa of point B.
- (iii) The coordinates of C.
- (iv) The ordinate of D.
- (v) The point identified by $(2, -2)$.
- (vi) The point identified by $(-3, 2)$.

3. Write down the coordinates of the points P, Q, R, S, T and U as shown in the given figure.
