

Crop Production and Management:

Children today We will learn about farming practices and various types of crops grown in our country. Read the material given to you and you will be provided with some videos too. After that you will be given assignments. So here is your reading material.

After completing your task take any copy old or new . On that copy write

1. Define a crop.

2. What is

i)A Kharif crop

ii)A rabi crop.

Give examples of each.

3. Name the basic steps involved in agricultural practices.

4. What is the purpose of loosening the soil?

four points.

5. What is tilling? Write the process involved in tilling.

6. Write notes on the following:

i) a plough

ii) a hoe.

Draw their diagrams also.

Sections 1.1, 1.2, 1.3.
